INFORMATION SECURITY AUDIT

FINDINGS ARE ALWAYS ACTIONABLE.
NO VAGUE RECOMMENDATIONS, NO OPEN-ENDED RISKS.

WHAT YOU GET?

- Executive-ready security assessment with clear priorities ✓
- Detailed report: strengths, risks, and required actions ✓
- Prioritized list of what to fix - not just a mile long list of small misconfigurations that can actually be fixed with a few conceptual changes ✓
- Concrete remediation guidance for every finding ✓
- Live results review with Sami Laiho (on-site or online) ✓
- Email support during remediation ✓

WHAT IS REVIEWED AND REPORTED?

- Active Directory architecture and security configuration, privilege/permission delegation, authentication, certificate services and effective security policies - complete security posture
- Endpoint / client security
- Security concepts to effectively protect against realistic threats
- All identified security weaknesses

BY ADMINIZE OY – LEADING MICROSOFT SECURITY SPECIALISTS

WHAT WE NEED FROM YOU?

✓ One standard domain-joined workstation (normal user device)
o On-site or remote execution

✓ Standard AD user account (no privileged roles)

✓ Local admin rights to the audit workstation only

✓ Named contact person

✓ A few hours for final executive walkthrough

Notes

This is NOT a penetration test.
No exploitation, no SOC testing, SOC should be informed in advance.

Entra ID

We audit Entra ID environments as well, ask for more information.

PRICING

Pricing for Information Security Audit is 10 000€ per domain. Pricing does not include taxes.
